About us...

Elevation Homes is a division of Streeter & Associates, specializing in the Minneapolis lakes area and surrounding long-established neighborhoods. We design and build timeless custom homes through a proven, streamlined process that achieves extraordinary results. Our projects are inventive, timely and sensitive to cost-effective solutions for a well-designed home.

What is your philosophy?

"We share a passion for design and a commitment to craftsmanship, building unique and comfortable custom homes that perfectly complement homes in long-established neighborhoods," says Nate Wissink of Elevation Homes. "Our homes are intended for the city lakes dweller who has an eye for design and appreciation for detail."

What is your definition of a beautiful home?

A classic, yet clean-lined home with spacious open floor plan and private courtyard that offers outdoor living spaces. It should have luxurious natural finishes, custom cabinetry, expansive windows, designer lighting, with rooms furnished by Room & Board.

INSIDER INSIGHT "We share a passion for design and a commitment to craftsmanship, building unique and comfortable custom homes that perfectly complement homes in long-established neighborhoods."

—NATE WISSINK, ELEVATION HOMES
